

Acceptable Use & Content Policy

MyPandaX LLC | Effective August 6, 2026 | <https://mypandax.com>

Company	MyPandaX LLC
Principal office	108 Walltown St, Lexington, NC 27292
Contact	support@mypandax.com https://mypandax.com

CORE RULE: MyPandaX is for adults age 18 or older. Public-facing areas must remain safe and inclusive. Any permitted explicit content is limited to designated private, age-verified areas and must involve verified, consenting adults.

1. Purpose and scope

This Acceptable Use and Content Policy ("Policy") governs all users, creators, live streams, recordings, profiles, messages, comments, communities, virtual gifts, tips, private interactions, links, and other activity on MyPandaX. It supplements the Terms of Service and applies throughout the United States.

Users must follow this Policy, applicable law, feature-specific rules, and reasonable safety instructions from MyPandaX. Content that is legal in one place may be restricted or unavailable elsewhere.

2. Adults only and identity rules

No person under 18 may create an account, appear in content, participate in a stream, access a private or restricted area, purchase tokens, receive a gift or tip, or monetize content. A user may not present as, role-play as, or sexualize a minor in explicit or exploitative content, even if the person is an adult.

Users must provide truthful age and identity information. Creators and persons depicted in restricted content must complete all required age, identity, consent, and performer verification before content is created, uploaded, streamed, or monetized. Account sharing, forged identification, identity rental, or verification circumvention is prohibited.

3. Public-facing content

Public areas must remain appropriate for a broad adult audience and may not display nudity, explicit sexual activity, exposed genitals, graphic sexual solicitation, or links and previews designed to evade the public-content rules. Profile images, thumbnails, titles, tags, and public live-stream previews must follow the same rule.

MyPandaX welcomes LGBTQ+ and straight communities. Content or conduct that attacks, excludes, or humiliates people based on race, color, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, disability, age, or another protected characteristic is prohibited when it constitutes targeted harassment, threats, dehumanization, or incitement.

4. Private age-verified adult content

Explicit content may be permitted only in a feature that MyPandaX has specifically designated as private and age verified. Every depicted person must be a verified adult who gave informed, specific, and documented

consent to the conduct, recording, distribution, and monetization involved. Consent may be withdrawn prospectively, and content must be removed or restricted when MyPandaX cannot verify continuing authority to distribute it.

Creators must use accurate labels, comply with access controls and geolocation restrictions, maintain required performer records and releases, and avoid public previews that reveal explicit material. MyPandaX may prohibit a category even if it is legal.

5. Zero-tolerance sexual safety prohibitions

Minors and child sexual exploitation. Any sexualization, grooming, solicitation, trafficking, nudity, or sexual depiction involving an actual, apparent, or role-played minor; child sexual abuse material; or links, instructions, requests, or communities facilitating such activity.

Non-consensual intimate material. Intimate images or recordings shared without valid consent, hidden-camera material, stolen private content, sexual extortion, threats to publish, or authentic or synthetic depictions created or distributed without the depicted person's consent.

Trafficking, prostitution, and exploitation. Recruitment, advertising, facilitation, or purchase of commercial sex acts, escort services, trafficking, coercion, forced labor, sexual services in exchange for value, or attempts to move such transactions off-platform.

Incapacity and coercion. Sexual conduct involving force, threats, blackmail, unconsciousness, sleep, intoxication or impairment that prevents consent, or abuse of authority or dependency.

Illegal or extreme sexual content. Bestiality, incest, necrophilia, sexual violence, genital mutilation, serious bodily harm, or other material prohibited by applicable law or processor requirements.

6. Artificial intelligence and manipulated media

Users may not create, request, upload, or distribute a nude, intimate, or sexually explicit digital forgery of a real person without that person's documented consent. Content that materially alters identity, age, consent, or conduct must not be used to deceive, harass, exploit, or sexualize another person.

Synthetic or altered adult content that is otherwise permitted must be conspicuously labeled when required by MyPandaX or law. AI-generated content involving or appearing to involve a minor is prohibited.

7. Violence, threats, and dangerous conduct

Users may not threaten, celebrate, direct, or credibly encourage violence; promote terrorism or violent extremist organizations; display graphic real-world injury primarily to shock or glorify harm; organize dangerous challenges; solicit murder or assault; or provide instructions intended to facilitate serious wrongdoing. Documentary, newsworthy, educational, or prevention content may be limited, labeled, or removed based on context and risk.

8. Harassment, privacy, and personal safety

Prohibited conduct includes targeted harassment, stalking, doxxing, unwanted sexual contact, repeated unwanted messages, blackmail, impersonation, outing a person's sexual orientation or gender identity, publishing private contact or location information, encouraging pile-ons, or recording or redistributing private streams and messages without permission.

Local-discovery or Social Meet features may not be used to track, ambush, coerce, or endanger another person. Users should not disclose exact home addresses, government identifiers, financial credentials, or other highly sensitive information in content or messages.

9. Fraud, payments, and prohibited commerce

Users may not commit fraud, manipulate payments or engagement, use stolen payment credentials, launder money, evade sanctions, abuse refunds or chargebacks, sell accounts, exchange tokens off-platform, or disguise a prohibited transaction as a gift or tip.

MyPandaX may prohibit or restrict weapons, controlled substances, counterfeit goods, illegal gambling, unlicensed financial services, stolen property, unsafe products, regulated goods, or other commerce that violates law or processor rules. Tokens are not cash, deposits, securities, or an off-platform currency.

10. Intellectual property and authenticity

Users may upload only content they own or are authorized to use. Copyright infringement, trademark misuse, piracy, removal of rights-management information, fraudulent notices, and evasion of technical protection measures are prohibited. MyPandaX may respond to valid notices and counter-notices under the Digital Millennium Copyright Act and may terminate repeat infringers.

Users may not impersonate another person or organization, misrepresent sponsorship, fabricate credentials, or operate deceptive coordinated accounts. Parody or fan content must not create a materially misleading affiliation and may require labeling.

11. Spam, manipulation, and system abuse

Users may not distribute malware, phishing, scams, unsolicited bulk messages, automated engagement, scraped personal data, credential-harvesting links, or deceptive redirects. Unauthorized bots, scraping, reverse engineering, security testing, access-control circumvention, denial-of-service activity, or interference with platform systems is prohibited. Responsible security reports should be sent privately to support@mypandax.com.

12. Creator and performer documentation

Creators must maintain valid releases and proof of age and identity for every depicted person and comply with 18 U.S.C. Sections 2257 and 2257A and implementing regulations where applicable. Required records must be accurate, individually identifiable, available for lawful inspection, and connected to any required disclosure statement. MyPandaX may require evidence of compliance before distribution or payout.

A creator must not delete, falsify, conceal, or substitute performer records; upload another producer's content without distribution rights and required documentation; or continue distributing material after consent or authority has ended.

13. Reporting and emergency response

Report suspected violations through the in-product reporting tools or support@mypandax.com. If someone is in immediate danger, contact local emergency services. Reports should identify the account, content, date, and concern without redistributing illegal material.

MyPandaX will preserve and report apparent child sexual exploitation to the National Center for Missing & Exploited Children and law enforcement as required by 18 U.S.C. Section 2258A. MyPandaX may also report

credible trafficking, threats, non-consensual intimate imagery, fraud, or other unlawful conduct and may preserve relevant records.

14. Notice and removal of intimate imagery

A person depicted in intimate content, or an authorized representative, may request removal by emailing support@mypandax.com with enough information to identify the content and confirm the request. Do not attach or resend illegal images unless specifically instructed through a secure process.

MyPandaX may remove or disable access to authentic or digitally forged non-consensual intimate depictions, preserve evidence, notify the uploader where appropriate, and restrict repeat violators. Requests will be handled consistent with the federal TAKE IT DOWN Act, other applicable law, and the rights of the depicted person.

15. Enforcement

MyPandaX may use automated detection, hashes, transaction monitoring, human review, trusted reports, and vendor tools. Depending on severity and context, action may include warning, reduced visibility, age gating, demonetization, transaction hold or reversal, content removal, feature restriction, account suspension or termination, device or payment blocking, evidence preservation, and reports to payment partners, rights holders, safety organizations, or authorities.

Severe violations may result in immediate action without prior warning. MyPandaX may act on off-platform conduct when it creates a concrete risk to users, the Services, payment integrity, or legal compliance.

16. Appeals

Unless prohibited by law or unsafe, a user may appeal a content or account decision by emailing support@mypandax.com with the username, decision date, affected content, and reason the decision should be reconsidered. An appeal must not include threats, repeated duplicate submissions, or illegal attachments. MyPandaX may deny an appeal that lacks new information or concerns a mandatory legal removal.

17. Federal and all-state compliance

This Policy is designed for nationwide use and must be applied with all applicable federal, state, and local laws. Relevant federal requirements may include laws concerning child exploitation and provider reporting, performer age and identity records, trafficking, obscenity, non-consensual intimate imagery and digital forgeries, cyberstalking, copyright, electronic communications, sanctions, fraud, and consumer protection.

State requirements may impose additional age-verification, harmful-to-minors, biometric, privacy, recording-consent, right-of-publicity, revenge-porn, deepfake, trafficking, obscenity, consumer-protection, or platform-safety rules. MyPandaX may apply state-specific notices, consent, verification, geolocation, or blocking. If a stricter applicable rule conflicts with this Policy, the stricter rule controls.

18. Changes and contact

MyPandaX may update this Policy prospectively to address legal, safety, processor, or product changes. Material changes will be communicated as required.

Reports, appeals, safety questions, and legal requests: support@mypandax.com. Mailing address: MyPandaX LLC, 108 Walltown St, Lexington, NC 27292. Website: <https://mypandax.com>.

LAUNCH REVIEW: This Policy requires operational support: age and identity verification, geolocation, consent and performer records, content labeling, public/private separation, reporting, NCMEC escalation, intimate-image removal, moderation appeals, transaction holds, and staff or vendor response procedures.
